Report of the Superintendent of Banks

Office of the Superintendent of Banks STATE CAPITOL

Helena, Montana,
October 6, 1922.

To His Excellency,
Hon. Joseph M. Dixon,
Governor of the State of Montana.

My Dear Governor:

Pursuant to the provisions of subdivision 7, Section 210 and Section 6084 of Code 1921, Laws of Montana, I have the honor to submit to you the Twenty-seventh Annual Report of the State Examiner and the Seventh Annual Report of the Superintendent of Banks, covering the period from November 30, 1920 to June 30, 1922.

You appointed me and I qualified and took office June 1, 1921. The Seventeenth Legislative Assembly changed the ending of the fiscal year from November 30th to June 30th. It, therefore, transpires that I have served one month (June, 1921) in the so-called "Seven-month year" and twelve months (July 1, 1921 to June 30, 1922) in the New Style, a total of thirteen months at a net departmental cost to the State of \$50,553.18. The net cost is arrived at by deducting from the total cost of running the department, the refunds, reimbursements and lawful charges made by us to banks in suspension and in our hands and which had been administered by our deputies who had been paid from our funds.

The records of the State Accountant's office show that the total cost of running the department the last legislative year before the change of style, March 1, 1920 to February 28, 1921, was \$49,882.14. That is, the thirteen months run from June 1, 1921 to June 30, 1922 cost the State but \$671.04 more than the twelve months run from March 1, 1920 to February 28, 1921. Again, it may be interesting to you to know that the last legislative year ending February 28, 1921 cost the State more than the year past by \$711. 74, the figures being:

March 1, 1920 to February 28, 1921.....	\$49,882.14
July 1, 1921 to June 30, 1922.....	49,170.40
Difference	\$ 711.74

When I took office in June, 1921, such had been the havoc wrought by the sudden breakdown of the country bank situation in the fall and winter of 1920-21, and the consequent disarrangement of the orderly administration of the Department, that of the 281 going banks, 181 were in arrears in examinations; of the 54 counties 25 were in arrears, some of which were as much as 25 months behind; 48 cities and towns out of a total of 108 were in arrears; quite all of the 68 irrigation districts, and 13 of the 27 building and loan societies were in the past due column. The experience of the department shows that the work had been steadily falling behind since the "Flu" epidemic of 1918 and that while people cry "too much government," they are continually demanding more government and better service. They create new departments, boards and commissions, and then manifest a disposition to

criticise those whose sworn duty it is to administer them. On June 30, 1922, the department was still with 71 banks, 4 counties, 13 cities and towns, various irrigation districts and 4 building and loan associations due for examination. It is, however, believed that by January 1, 1923, the slack will all be taken up and the work of the department up to date.

It grieves me to have to report to you as I have heretofore done however, but not in this formal public manner, that the State has suffered a total of 39 bank failures, both State and National, affecting only 37 banks, however, 2 State Banks having failed again after having been reopened. Of these, 26 were State institutions having total liabilities of \$10,520,802.00, and 11 were National institutions having total liabilities of \$2,523,200.00.

The experience passed through has proven that our banking laws were totally inadequate to cope with the situation. We have ventured to respectfully recommend to your consideration certain remedial and constructive measures which we hope will cure many of the defects revealed by the strain. It will be at once my duty and my pleasure to lend all aid within my power to enact a sound Banking code at the forthcoming session of the Legislature. It affords me pleasure and pride to advise you that we shall have the co-operation of the Montana Bankers Association in this endeavor. It is our joint purpose to have a draft of the proposed new code prepared in advance.

The tables of statistics and information contained in this report are inserted for your information and guidance. We have intentionally included statistics relative to the National banks of the State for the purpose of illucidation and comparison as we have also inserted some broader statistics, historical and otherwise.

Before closing this foreword, I cannot resist the impulse to thank the Bankers of Helena and the other large cities of Montana, the Bankers of the great centers such as the Twin Cities, Chicago and New York, and especially the Federal Reserve Branch Bank here and the parent Bank in Minneapolis, as well as the officers of the War Finance Corporation, for their never failing assistance, encouragement, co-operation and counsel. I want also to acknowledge in this public manner the helpful assistance of the Montana Bankers Association and especially mention in this connection their Secretary, Mr. A .T. Hibbard and their Counsel, Messrs. Stewart and Brown, and also do I wish thus publicly to thank my lifelong friend and learned personal counsel, the Hon. James A. Walsh, for his never failing advice and counsel during these trying 13 months. I want also to express in this State record my deep appreciation of the loyalty, zeal and efficiency of my official family, but for them, all would have failed and come to naught. I also wish, in this public manner, to acknowledge the uniform co-operation and assistance of the other State officials and especially those of Attorney General's and Auditor's office. I would fail in my full duty were I not to acknowledge the ever considerate press for its uniformly thoughtful treatment during these trying months of failure and disaster, and finally, I want to thank you for your never faltering faith and confidence in me. You, personally, were the "great cloud by day and pillar of fire by night." Without the sense of your abiding faith and confidence in my ability to cope with the situation, I hardly believe I could have succeeded. It is, therefore, with the most distinguished personal consideration that I have the honor to submit to you, this my first official report.

L. Q. SKELTON,

State Examiner and Superintendent of Banks.

Roster of State Examiner

	Appointed
D. G. BOGART*.....	March 21, 1895
J. G. MORONEY*.....	March 1, 1897

* Now Deceased.

Official Roster

June 30, 1922

Division of Banks—

L. Q. Skelton, Superintendent.
 S. L. Kleve, Deputy and Assistant Supt., Helena.
 C. M. McCoy, Deputy Supt., Helena District.
 Geo. K. Dick, Deputy Supt., Havre District.
 H. E. Stewart, Deputy Supt., Great Falls District.
 G. L. Petersen, Deputy Supt., Billings District.

Division of Public Accounting—

L. Q. Skelton, State Examiner.
 R. N. Hawkins, Deputy and First Ass't. State Examiner.
 John Oliver, Deputy and Second Ass't. State Examiner.
 J. D. Dwyer, Deputy, Missoula District.
 F. E. Williams, Deputy, Billings District.
 A. E. Williamson, Deputy, Eastern District.
 J. C. Lyndes, Deputy, Assigned to Special Duty.

Office Force—

Golde Fitzpatrick, Chief Clerk.
 Nellie Kenyon, Clerk.
 S. J. Giulio, Special Typist.

DEPARTMENTAL FINANCIAL STATEMENT.

It will be remembered that the ending of the fiscal year was changed by the Seventeenth Legislative Assembly (1921) from November 30th to June 30th, thus throwing June 30, 1921 as the ending of the "short year."

The same Legislature created a fund of \$15,500.00 to take care of the expenditures of the office for the four months period, March 1, 1921 to June 30, 1921. I was appointed and took office June 1, 1921 and found the fund with a credit balance of \$2,371.54. Collections were immediately forced with the result that the office took care of itself and had credit balance to revert to the new fiscal year beginning July 1, 1921, of \$123.77.

Formal audited statement follows in detail:

FISCAL YEAR JULY 1, 1921 to JUNE 30, 1922.**EXPENDITURES**

Salaries:			
Banks	\$22,145.20		
Counties	9,838.32		
Cities and Towns	2,200.00		\$34,183.52
Mileage and Traveling Expenses:			
Banks	\$ 8,001.55

NOTES.

As a matter of information it is proper to state that at the present rate of examination fees the Department has an annual earning capacity of \$32,305.00. This, of course, goes to the General Fund ultimately through the Examiner's and Banking Auxilliary accounts.

GROWTH AND DEVELOPMENT OF EXAMINATIONS.

Section 210, Code 1921, requires the State Examiner to examine the books and accounts of state and county officers and all other public officers and boards, whether temporary or permanent, however created, and for whatever purpose, having the control, management, collection or disbursement of any public moneys of any character or description. This law, coupled with other provisions of the statutes, makes it the duty of the State Examiner who is also ex-officio Superintendent of Banks, to examine the books and accounts of the following:

1. All State Officers.
2. All County Officers.
3. All State Banks.
4. All Building and Loan Associations.
5. All Incorporated Cities and Towns.
6. All Boards.
7. All County Free High Schools.
8. All Irrigation Districts.
9. First and Second Class School Districts on Petition.
10. All Firemens' Disability Associations.
11. The Students' Loan Fund.
12. The Veterans' Welfare Commission.
13. The Montana Association for Prevention of Tuberculosis, Secretary's Books.
15. Special Examinations.

There are twenty-three State Departments to examine at least once each year. There are fifty-four counties to examine at least once each year. There are one hundred and nine incorporated cities and towns to examine at least once each year. There are nineteen County Free High Schools to examine at least once each year. There are sixty-eight irrigation districts to examine at least once a year. There are twenty-seven building and loan associations to examine at least once each year. In the year 1916 there were forty-one counties in the State. In the year 1922 there are fifty-four, an increase of thirteen counties or almost one-third within the past six years. In like manner the objects of examination have increased all along the line, as has also amount of care and work bestowed on each object of examination. As an illustration, six, seven and eight years ago, the report of a county examination was typed on two sheets of letter size paper; today it is typed on from ten to forty-nine pages of legal size type-writer paper. So with each object of examination. For special mention we might refer to the examination made of the Veterans' Welfare Commission, which contained forty-three pages and occupied the time of one examiner for thirty days, with the assistance of another one for fifteen days; of Yellowstone County which contained forty pages and occupied the time of one examiner twenty-eight days and of another examiner for the special examination eight days, and of Miles City which contained forty-nine pages and occupied the time of two examiners for thirty days. One county occupied the attention of an examiner seventy days. Six years ago there were but few irrigation districts in the State and they were not examined by this Department. Today there are sixty-eight, forty-three of which have been examined by the Department.

We travel over a country as large as New England, New York, New Jersey, Delaware and the eastern half of Pennsylvania, an area quite as large as France or New Germany. The distance across the State of Montana over the Northern Pacific railroad is seven hundred and eighty miles. On the main line of the Great Northern railway

between Troy on the western boundary and Bainville on the eastern, there are twenty-three cities and towns to examine. Over the Northern Pacific there are twenty-five; over the Chicago, Milwaukee and St. Paul railway there are eleven where the road does not connect with other roads; besides many other incorporated cities and towns located on branch roads.

In the period covered by this report, examiners have uncovered, in County and City administrations and otherwise, irregularities amounting in grand total to \$229,120.54, distributed as follows:

COUNTIES	\$165,342.81
CITIES	63,777.73
GRAND TOTAL	\$229,120.54
CASH RECOVERED BY EXAMINERS.....	18,175.08
AMOUNT UNRECOVERED	\$210,945.46

It is not apparent to the department why much of above \$210,-945.46 should not be recovered by appropriate action by the proper officers of counties and cities. It is the position of the department that all public officials should be required to account.

The above survey is written to apprise you of the growth and development of the department from its humble beginning a quarter of a century ago, when the examiner quietly visited 16 counties and a few banks, to its present state-wide activities. Hardly a session of the Legislature has passed without creating new duties for it. With those new duties came new responsibilities. "Time makes ancient good uncouth" and so what once was ample would be now altogether inadequate. The department has developed into a real task to be performed, not by the puisne, but by him who is unafraid.

Comment, suggestions and recommendations on these various subjects will be found in connection therewith as a Foreword.

Part I---BANKS

“Do nothing to foster and encourage speculation. Give facilities only to legitimate and prudent transactions. Distribute your loans rather than concentrate them in a few hands. Pursue a straight-forward, upright, legitimate banking business. Treat your customers liberally, bearing in mind that the bank prospers as its customers prosper.”

HUGH McCULLOUGH,
Appointed by President Lincoln, First
Comptroller of the Currency, 1863.

Excessive Loans have caused almost one-fifth of the failures in the National Banking System since its beginning.

BEWARE OF THE LARGE LINES.

PAST and FUTURE.

As your Honor knows, even better than I, Montana's financial troubles are attributable to three great outstanding causes: Deflation, Drouth and the High Tastes of its people. First, is the world wide deflation that originated in Japan in the early days of 1920 and swept over the world like a consuming fire, licking up values, shutting down industries and thus depriving multiplied millions of the means of livelihood by taking away from them their buying power. No class was exempt from its all-devouring rage. Every gainful occupation was affected by it from the farm hand to the captain of industry. Every line of human endeavor fell off to the minimum within a period of six to ten months. No one could even guess the nethermost line, each day brought new low levels. No man or class of men could point the accusing finger at the other and say that he had not taken his share of huge losses. I recall hearing a great livestock broker say that in the fall of 1919 he considered himself rich, but when speaking (February 1, 1921) he did not know if he were worth anything at all or not. Every one had to take his loss. The poor suffered by losing their jobs, but the rich suffered unimaginable losses. The premier securities of the earth suffered death-dealing slumps from day to day; the moneys of States and Nations went to negligible values in the world's markets, and the best property in the land became a liability. Montana was no exception and so shared in the general world destruction. Such was the fiery furnace through which we have passed.

Second, was the continued drouth conditions in Montana. For five weary years, we have run the whole gamut of war, famine and pestilence due to failure of crops to yield anything above cost of production. These conditions necessitated renewals and extensions by the banks which finally wrought the havoc among them that this report discloses by a long continued period of increasing lines of loans and decreasing lines of deposits. Heavy borrowing by the banks became necessary to meet withdrawals of deposits which latter were made necessary by crop failures. The large borrowings rendered necessary large pledgings of the assets of the banks, which assets continued to depreciate by the very causes that necessitated the borrowings and pledgings, to-wit: continued inability of agrarian borrowers to make any margin above production cost with which to reduce their lines. This continued until the banks began to close their doors in October, 1920, and have continued to fall by sheer exhaustion up to this moment. Over the period of the last twenty months, there have been 26 State and 11 National banks of the State forced to the siding for repair or final liquidation.

The third great outstanding cause of Montana's sorry plight is the high tastes of its people, ranging as it does from expensive public improvements, high priced amusements and consequent loss of homing sentiment, to fur coats and silk stockings bought on the installment plan—all of this resulting in the waste by those who happen to have had a patrimony, and lack of the saving and thrift habit by those who need it most. It might safely be said that the yearly cost of the upkeep of Montana's automobiles, saying nothing of the original cost of the machines, would easily pay the fifteen millions of money borrowed by the State banks.

With the above review in mind, it is to be said that the first cause of our trouble, deflation, is not different from the experience of man after other great world disturbances, for the deluge is inevitable once the cause be present; but this time it came quicker and worked more rapidly and destructively owing to the advanced

knowledge man has of the effect of such causes and also owing to the greater and more rapid facilities men now have of intercommunication.

As to the second cause, it may be said that Montana has risen. We have a yield of 37½ million bushels of wheat this year, 6 million bushels of corn and as many bushels of potatoes, and an abundant crop of hay. We are advised by the department of agriculture that 11 principal farm crops will yield 70 millions of money even at the 64 cent dollar. The ranges are back to maximum, the mines and mills are producing increasingly, and there can be no doubt of our ultimate recovery. If I were naming outstanding unfavorable prospects, I should not hesitate to say that the exceeding burden of debts, both public and private, and especially on the farming population, and the wild carnival life we are leading are they. However, I have never faltered in my faith in the ultimate recovery of Montana. I have always felt that we just must have faith in Montana. My vision is realized. We are slowly but none the less surely coming back to normal, and prosperity is even now at our door. We have but to exercise patience and industry, thrift and economy and all else will be added. Montana opportunitas est.

NUMBER OF BANKS.

On June 30, 1922, date of this report, there were in operation in the State 261 incorporated State banks and 7 Private banks, having total employed Capital, \$15,866,907.26; Deposits, \$73,332,592.77; Borrowed Money, \$14,989,574.80, with total Resources of \$104,485,722.46.

On this same date, 130 National banks operating in the State reported Employed Capital, \$12,562,000.00; Deposits including Cashiers Checks and Certified Checks, \$59,725,000.00; Borrowed Money including Rediscounts, \$10,151,000.00, and total Resources, \$86,254,000.00.

The total banking power of the State, therefore, based upon total Resources of all reporting banks was \$190,739,722.00 as against the high point of \$235,785,203.00.

The recorded high point in the number and footings of banks in the State was revealed by the call report of December 31, 1919, when 280 incorporated and 8 unincorporated (private) banks were shown to be in operation with \$17,987,841.48 Employed Capital, \$4,497,654.29 Borrowed Money, \$107,567,531.66 Deposits, and having \$130,270,796.31 Total Resources. At the same date the 142 National banks of the State showed Employed Capital, \$12,995,430.04; Borrowed Money, \$1,148,273.17; Deposits, \$86,662,158.90, and total Resources, \$105,514,407.40. The condition report as of all banks at that date showed a total Banking Power of \$235,785,203.71.

STATE BANK SUSPENSIONS AND FAILURES.

In the period from October 18, 1920 to June 30, 1922, there were 28 bank suspensions affecting 26 different banks, 2 having failed after reopening, of which 11 are in the hands of receivers 10 have been reopened and 5 are still in the hands of the department. Tables follow:

TWENTY-SIX BANKS CLOSED THEIR DOORS SINCE OCTOBER 18, 1920, HAVING:

Employed Capital	\$ 1,613,954.12
Deposits	6,167,749.63
Borrowed Money	2,708,575.40
Other Liabilities	30,523.51
Total Liabilities	\$10,520,802.66

Of these, 11 (at date hereof) are in hands of Receivers, 10 have been reopened and five are still in the hands of the Department.

STATE BANKS CLOSED SINCE OCTOBER, 1920, AND IN HANDS OF RECEIVER ON JUNE 30, 1922
(Statement as of Day Bank Closed)

BANKS	Capital	Surplus	Und. Prof. Etc.	Deposits	Borrowed Money	Other Liabilities	Resources
Clark-Wright Co., Bankers, Bear Creek, Mont. (Closed 1-20-21).....	\$ 30,000.00	\$ 6,000.00	\$ 4,579.32	\$ 346,388.14	\$	\$	\$ 386,967.46

Bank of Wheatland County, Harlowton, taken over by the Continental Bank & Trust Co., Harlowton.

Security State Bank, Fairview, consolidated with the First National Bank, East Fairview, N. D., and is now the First National Bank, Fairview, Montana.

First State Bank, Wibaux, taken over by the Wibaux County Bank, Wibaux.

LIQUIDATION OF BANKS SINCE NOVEMBER 30, 1920

Farmers State Bank, Wheat Basin.

Lothair State Bank, Lothair.

CHANGE IN NAME SINCE NOVEMBER 30, 1920.

Fergus County State Bank of Hobson to Judith Basin Bank of Hobson.

There does not seem to be any complete record statistics available relative to the number or magnitude (in totals) nor causes of State Bank failures in Montana prior to October 18, 1920. However, it appears that at least five State Banks having Employed Capital of \$582,735.71 and Deposits and Borrowed Money Liabilities of \$3,038,483.21, failed prior to that date.

TABLE SHOWING STATE BANK FAILURES PRIOR TO OCT. 18, 1920

	Deposit Liabilities	Employed Capital & Surplus
Hewett State Bank, Basin	\$ 36,571.51	\$ 31,500.00
First Trust & Savings, Billings.....	541,081.98	107,004.42

State Savings Bank, Butte (including Bor- rowed Money 75M)	2,117,028.29	382,996.43
	<u>\$3,038,483.21</u>	<u>\$582,735.71</u>

NATIONAL BANK FAILURES PRIOR TO OCTOBER 31, 1920

According to the Report of the Comptroller of Currency there had been fifteen national bank failures in Montana up to October 31, 1920, four of which were reopened for business, leaving eleven to go into final liquidation, having Employed Capital of \$2,025,000.00 and Total Assets of \$12,505,358.00.

CAUSES OF BANK FAILURES.

The primary cause of the great number of failures covered by this report was of course deflation and the long continued drouth, but there were other contributing causes that made these great primary causes more deadly. An attempt has been made to classify, viz:

1. Those involving only crop failure and consequent inability to liquidate, 5.
2. Those involving injudicious banking as well as repeated crop failures, 11.
3. Those involving criminal and otherwise unlawful actions of managing officers, 4.
4. Those involving injudicious banking as well as slump in price of livestock, 5.
5. Death of a partner in a private bank necessitating receivership, 1.

HISTORICAL STATISTICS.

Ninety-five per cent of the 594 National Bank failures over a period of 57 years were attributable to four great causes: Criminal and other unlawful acts of officers and directors were responsible for 48%, injudicious (careless) banking, 23%; depreciation (slump) in assets, 14%; and excess or unlawful loans to other than officers, 10%; and only 5% of all failures from the beginning of the National System in 1863 to June 30, 1920, were caused by runs or other causes.

LEGISLATION RECOMMENDATIONS.

In my judgment the trying times through which we have just passed have demonstrated that our banking laws are "all sail and no anchor." This is accounted for doubtless by the fact that they were drawn at a period when times were good and every sail was filled with fair winds and no living man dreamed of such tests as those to which we have been put. During this period of trial, the department has found need of larger powers and more direct and speedy remedies for a vast number of ills to which we are heir. The remedies now provided are, barring a few negligible ones, almost all of a capital nature. In fact about the only penalty now to which we may subject the delinquent bank is receivership. This is suicidal and defeats the object of supervision. We should be armed with the necessary authority to avoid this by commanding the situation before it is let drift too far and by repairment avoid calamity. The work of our predecessors is, in every case, to be commended, but "new occasions teach new duties" and now that our banking code has been found without teeth in so many respects, I would respectfully recommend re-writing same to a very large extent and would incorporate many changes and more especially the following:

1. That the department be given authority to levy stock assessments to make good capital impairment and provide that such assessment be a prior lien on the stock of record and that same may be sold and effectively transferred to pay such assessment.
2. That a law be enacted providing a method of voluntary liquidation and consolidation of banks.
3. That the department be vested with authority to appoint liquidating officers instead of the present receivership method, in case of bank failure.
4. That a law be enacted providing for the liquidating officer to enforce the double-liability statute on stockholders.
5. That a loan limit be fixed at 10 per cent of capital and surplus and that surplus be as inviolate as capital, except on permission of Superintendent of Banks.
6. That too free borrowing by the bank be controlled, if possible, and this can best be done, in my judgment, by requiring a full publication of all borrowings.

7. That excessive pledging of collateral be controlled, because after all, the collateral pledged is the money of the depositor, and when trouble comes, the collateral may be sold under the hock law, and thus the depositor may be ruined, as well as the bank I suggest controlling this by publication also.

8. That borrowing of money by the issuing of certificates of deposit of the bank be prohibited.

9. That what is generally spoken of as blanket guarantee, by directors and officers and their friends, be discouraged. I know no surer road to ruin than the guarantee.

10. That real estate loans should be further circumscribed and examinations should delve more deeply into classifications of loans and deposits to the end that seasonable maturities may be procured, to guard against the lean season in the bank's 12-month run, and savings should be administered within the rules of the federal reserve bank act.

11. That taking second mortgages should be held strictly within the letter and spirit of the law. It would be easy for me to say too much concerning this at this nervous time, but country bankers will kindly take notice and govern themselves accordingly.

12. That the law provide modified service charge based on costs, for examinations, and, that the department be given authority to make special examination, when in the judgment of the Superintendent, same becomes necessary and authority to charge therefor.

13. That manipulation of the bank for benefit of officers and directors be safeguarded by more stringent rules and greater penalties for violation. The National System records show that quite 50% of the failures of that system have come about by machinations of directors and officers.

14. That a law be enacted providing that where a considerable percentage of depositors owning or controlling a considerable proportion of deposits of a suspended bank agree upon articles of reorganization approved by the Superintendent of Banks, then the remaining depositors and deposits owned or controlled by them are bound by the agreement the same as if they had joined in its execution.

15. That a statutory bad debt be defined and a law enacted concerning same.

16. That the percentage of reserve should be raised to 20% and penalty provided for insufficient reserve.

17. That bank charters issue directly from the Department of Banking.

BORROWED MONEY.

The State Banks, at this time, have borrowed money amounting to \$14,989,574.80, of which \$10,229,195.39 is borrowed from the War Finance Corporation at 5½%. The Corporation, in the main, is exacting collateral security on a basis of 1½ to 1. Inasmuch as it seems plain that the banks will continue borrowers for some time to come and the further consideration that the rate exacted (5½%) is quite reasonable, being, at most only a rather stiff time deposit rate, it is the judgment of the Department and I so recommend, that this line of borrowings be continued by substituting acceptable collateral when pledges are paid, until such time as the borrowings can be retired with ease and without loss to the State of much needed funds.

DEPOSITS OF PUBLIC FUNDS.

Sections 4767 and 5034 of Code 1921 requires public funds to be deposited by treasurers in banks which are required to qualify themselves by providing acceptable security. In the case of the State only Surety Company bonds are acceptable. In the case of other public treasurers other forms of security may be accepted by the approving body.

When the slump came and the clouds began to gather, very naturally, there was exhibited a tendency on the part of operating Surety Companies in the State to get out from under. This tendency is still apparent and may cause embarrassment this fall. Some of their representatives expressed a wish to me that some means be devised to take care of this public necessity in some other way.

Again, it develops that in some quarters, at least, it is sincerely asserted that public funds constitute a preferred claim on the assets of a bank in case of failure. This being true, though not admitted, it would appear that premiums paid for such surety is without value received, inasmuch as no bank gets in such sorry plight as not to be able to marshal enough assets to pay the public deposit.

I, therefore, would respectfully recommend that there be a statutory enactment passed effectually denying the doctrine of preference or that other methods of securing public deposits be devised.

PART II

BUILDING *and* LOAN ASSOCIATIONS

BUILDING AND LOAN ASSOCIATIONS.

There are 27 Building and Loan Association operating in the State, having total assets of \$13,360,725.42, as nearly as can be ascertained, doing business in 20 cities. They are all domestic corporations but one—The Western Building and Loan Company of Salt Lake City, Utah, having been already in business in the State when the Act was passed March 1, 1897, requiring all such associations to be domestic corporations. The associations are all corporations organized under the general corporation laws of Montana, but administered under the Banking Laws in the absence of specific statutory regulations otherwise.

I recommend that their administration be transferred to the Superintendent of Banks and that Section No. 6358, Code 1921, be rewritten with a view of more clearly defining their powers and duties. These institutions are in fact a very meritorious form of banking and should be encouraged and safeguarded. Their tendency to encourage thrift, saving, homebuilding and so tending to cause great increase in the volume of improved property, renders them worthy of our most serious attention, for after all the thrifty homeowner is of our best citizenship.

RECAPITULATION REPORT OF THE BUILDING AND LOAN ASSOCIATIONS DOING BUSINESS IN THE STATE.

	<hr/>
	\$ 54,331.88

W. J. HAYES, President.

B. WILLIAMS, Secretary.

Number of shares in force, 1,060; number of shareholders, 81; number of shares borrowed on, 518.

PART III—STATE

THE STATE.

In view of the present condition of the State's finances, we were impelled to make an effort to bring together the entire public indebtedness of State, Counties, Cities and Towns and so on, in Table form, as of June 30, 1922. By public indebtedness we mean all those obligations of a public nature to discharge which tax levies must be made, ordinary or extraordinary, general or special. Necessarily these are slightly incomplete due to the failure of 4 towns and 4 irrigation districts to report and also to the manner of accounting in school districts in many instances. This is true notably with respect to floating warrant indebtedness. Nevertheless, the figures given below are substantially correct.

It may not be amiss for me to remark that to one who has been used to speaking authoritatively "by the book" for a life time, the scattered and incoherent methods of accounting in vogue in the State are very unsatisfactory, to put it mildly. I should respectfully recommend that a control system of accounting be adopted for the State whereby accurate, ready and reliable data can be reached through One General Office here at the Capitol. I would have this reach every department, every Board and every Institution, as well as all property and every activity of the State. I would have the system so highly developed that I should know the source of every cent of revenue and the final disbursement of every penny.

PUBLIC DEBT OF THE STATE OF MONTANA AND ALL SUBDIVISIONS AND DISTRICTS THEREOF JUNE 30, 1922

STATE DEBT:

Warrants outstanding	\$ 3,274,370.91	
Bonds outstanding	4,598,000.00	
Total debt of the State outstanding		\$ 7,872,370.91
(To which should be added the unsold portion, \$1,701,000.00 (of the educational Bond issue which must be expended as) (soon as buildings now in process of erection are completed,)) (making total indebtedness, \$9,573,370.91)		

COUNTIES:

Warrants outstanding	\$ 3,030,339.46	
Bonds	28,304,533.98	
Total debt all Counties		\$31,334,873.44

CITIES AND TOWNS:*

Warrants outstanding	\$ 1,818,601.07	
Bonds	9,534,627.45	
Special Improvement District Bonds and Warrants.....	6,806,483.62	
Overdrafts	416,432.49	\$18,576,144.63

SCHOOL DISTRICTS:

Bonds		\$11,579,364.90
(Impossible to get warrant indebtedness.)		

SPECIAL DISTRICTS:**

Irrigation Districts	\$ 2,996,838.35	
Drain Districts	135,313.81	
Outside Special Improve. Districts	262,458.48	
Fire Districts	1,989.35	
Total Special Districts		\$ 3,396,599.99
Total to be paid through taxation....		\$72,759,353.87

*Towns and cities not reporting: Forsyth, Dodson, Libby, Twin Bridges.

**Treasurer not reporting on Special Districts: Big Horn, Broadwater, Richland, Sheridan.

FISCAL AGENT.

Owing to the fact that almost every political unit in the State has made its bonds payable at the great eastern centers, and the further fact that brokerage, commission and exchange cannot be allowed, it is, therefore, recommended that a State Fiscal Agency law be enacted to take care of this contingency without further cost to the people. We have, for the most part, arranged with paying-agent banks to take care of their obligations without charge on a thirty-day deposit basis, but the success of the plan will depend upon the promptness with which public treasurers transmit the funds. It would be better to have a State Fiscal Agency Law.

PART IV — COUNTIES

COUNTIES.

Much can be done toward improving County Government. The approval by the people of the consolidation of cities and towns is a move in the right direction, in our judgment. Adoption of commission or managerial form of government will be another forward movement. When one's eyes behold a county bonded and warrant indebtedness of \$31,334,873.44 and realizes that the delinquent tax footing reached the astounding sum of \$9,776,227.65, he stands mute as before the impossible. We would respectfully recommend legislation as follows:

1. Amend Section 2214, Code 1921, increasing period to 5 years.
2. Amend Section 2038, Code 1921, allowing definitely \$50.00 each to the Assessor and his deputy or deputies.
3. Amend Section 1619 and 1620 relating to duties of County Treasurers and all related Sections relative to collection of poor tax and definitely provide that same be collected by the County Treasurers—(Related Sections are 1617, 2279, 2280, 2288, 2290 and 2295, respecting duties of Assessors and County Commissioners.)
4. Amend Sections 206 and 10001, Code 1921, relating to escheated estates and provide that action be taken by Judge of District Court.
5. Amend Section 3348 relating to the collection of butcher's license, making it the duty of the County Treasurer to collect same.
6. Amend Section 4811, Code 1921, making it the duty of the Chairman of Board of County Commissioners to sign all County Warrants.
7. Enact a law providing that where officials of a County make use of their own cars in due performance of their official duties, they may collect 12½c per mile for distance actually traveled in lieu of the "actual expense" practice now followed, unless otherwise provided by law.
8. Amend the Constitution (Article XIII, Sections 5 and 6) so as to be enabled to legally fix the limit of indebtedness of Counties, Cities and School Districts at 5% of the "Taxable Valuation," in lieu of the "Cash" valuation as now provided.
9. Amend Sections 4874, 4875 and 4876 relating to number and compensation of Deputies in county offices, to provide sufficient number of same to prosecute the work of the office with order and dispatch.
10. Enact a law providing that where County officers collect moneys in the course of the discharge of their duties and that where in doing so they take and receive checks and drafts which later prove worthless, that they be charged only with the exercise of due diligence in collecting same.
11. Amend the Constitution (Article 16, Sections 4 and 5) so as to be enabled to legally fix the term of all County and Township officers at four years instead of two.
12. Pass an Act providing that where County Attorneys have their official stenographer do private work for them that the regulation fee for such work be reimbursed to the County.
13. Amend Section 3979 relating to delinquent tax of irrigation districts to provide that penalty on such delinquent tax when collected shall go to the General Fund of the County wherein the district is located.

14. Amend Sections 224 and 230, Code 1921, relating to over-drawing budget allowances, to provide that same may be over-drawn only in cases of emergency and the highest exigency and then only on approval of the State Examiner.

15. Amend Section 213, Code 1921, relating to penalty for failure to render reports or failure to comply with lawful rules and regulations of the State Examiner, to provide for forfeiture of salary or portion thereof to the State Examiner's fund for such failures or either of them.

16. Provide for assessment of real property according to description thereof and not as to ownership as now provided.

17. Amend Section 4917 relating to filing fee for annual representation of mining claims to provide for a sliding scale fee where the one affidavit covers several claims.

18. Amend Section 4767, Code 1921, relating to distribution of public deposits by Treasurers of Counties, cities and towns, to provide that such Treasurers must distribute funds to qualifying banks according to their paid-in capital stock, and clothing the State Examiner with the necessary authority to compel obedience and providing suitable penalties upon such banks for failure to comply.

19. Amend Section 4751 relating to receipting for miscellaneous moneys to provide that Treasurers shall draw receipts in triplicate, delivering original to payer, duplicate to County Clerk and retaining triplicate in office.

20. Publish in official paper the State Examiner's report of examination of counties and cities.

21. Amend Section 13 of Article XII of the Constitution relating to publication of State Treasurer's report, eliminating such publication in the form now in vogue.

And finally, while not questioning the ancient accepted principle of small self-governing units, nevertheless, the times embolden us to remark that in view of the crushing tax burden the wisdom of creating eleven new counties in the last four years might well be doubted. It appears from the records that where valuation is less than six million dollars, the rate required to support a county government becomes confiscatory. The State of Washington with a much greater population and but little less extent of territory has but 39 counties, while we have 54. Many other adverse comparisons might be made.
